

Easy-Mount Kits for PC/104 & PC/104-Plus Modules.

Astoria, NY - A new series of Hardware Mounting Kits for PC/104 and PC104-Plus Bus Drives ideal for limited space design/installation applications is among the latest developments from Keystone Electronics Corp.

DEngineered to ease assembly of new modules and multi-board stacks, the PC/104 and PC/104-Plus kits may be used with any of the more than one hundred different PC/104 modules available in the marketplace.

Each of Keystone's PC/104 hardware mounting kits includes all the hardware required to mount a single-board and is supplied with 4 each: #4-40 threaded spacers .600" length, #4-40 x 1/4 screws, and nuts. For kits with Brass components, request p/n 8799-4; for kits with Aluminum components request p/n 6799-4; for kits with Stainless Steel components request p/n 5799-4; and for kits with Nylon components request p/n 4799-4.

Keystone Electronics Corp. is a major manufacturer of interconnect components and hardware and provides a full complement of stamping, machining and assembling services.
